# Drilling Dynamics

**Deep hole gun drilling for the following industries:**

- **Automotive**
- **Aerospace**
- **Medical**
- **Firearms**
- **Hardware**
- **and more...**

**Drilling Dynamics LLC** has the excellence in application, technique and tooling through 30+ years of gun drilling experience. The large variety of deep hole drills, machine development and work experience enables us to meet even the most difficult requirements with unsurpassed continuity, quality and delivery.

***Our staff of engineers, machinists, and tool makers are experienced in the manufacturing, running and maintenance of our tools which results in quality parts and minimal down time.***

**Drilling Dynamics** is equipped with a variety of single and multi-spindle NC and CNC gun drilling machines capable of drilling holes from **.055" to 2.50" in diameter and up to 72" in depth**. Holes are produced in cylindrical bar stock, screw machine, finished or semi-finished parts, blocks or blanks and in a variety of materials such as cast iron, steel, aluminum, Inconel, copper and plastics to name a few. Whatever part configuration requiring a hole, we have the ability to produce it.

- We have a large inventory of stock and specialty drills with the technical resources to modify, re-sharpen, repair and maintain drills on site.
- As a secondary service operation we understand that quality parts and on time delivery are most crucial to our customers.

**OUR OBJECTIVE is to provide our customers with the service and support necessary to meet their needs. No matter the quantity, Drilling Dynamics will strive to meet even the most demanding quality expectations and delivery schedules.**
